- Josh is also working on a webpage that has the poster images, locations and attendees of the AGMS for as long back as I can get. (Josh has also asked national to prep a simple summary of what was done at the agm and hopefully that will become part of the webpage as well)

Other events to think about:

- Women in design -Alberta south did this to some good success.
- Shared events with Vendasta/ZU/7ShiftsThing to discuss,

Cheryl Lynn Rutledge Student award

- The GDC is trying to get this scholarship to \$1000, it was started by Mark Rutledge in honour of his mother.
- Josh would like to donate \$500 from SKN. Let him know what you think. Allan expressed reluctance to contribute to a race-based award but was willing to concede to popular opinion. You can find details on the scholarship at <https://gdc.design/indigenous-student-award/donate> There is a way we could do this as a matching donation to encourage others to donate as well, or we can just straight up give it to 'em.
