## About the Vancouver Island Chapter

The Graphic Designers of Canada Vancouver Island Chapter (GDC VI) represents graphic designers living and working on Vancouver Island and the Gulf Islands.

Through our collaborative events, our newsletter and social media, **our reach touches almost all graphic designers in the region.**

GDC VI's goal is to enrich the graphic design community of this region. We host well-attended events, bringing together graphic designers for professional development and networking. Most of our events in the last three years were sold out, often with over 100 attendees.

We also host active social media platforms, with posts reaching up to 1,200 locals in the graphic design community.

## About the national organization

The Graphic Designers of Canada (GDC) comprises chapters across Canada, with approximately 930 members. Founded in Toronto in 1956, the GDC evolved into a national association and was granted a Federal Charter in 1976.

Like all professional associations, we set high standards of professional conduct, practice and integrity. We are a member-based organization of design professionals, educators, students and affiliates. We come together to advance the profession, grow professionally, mentor each other and help improve the general public's understanding of the graphic design profession.

The GDC is the only Canadian organization of its type which provides national professional certification. We work to build a recognized and competent body of graphic designers, promoting high standards and ethics for the benefit of Canada's industry and the broader public good.

**How do I track in-kind contributions?**

Please create an account for "GDC VI" with a credit in the dollar value of your in-kind sponsorship. When you provide the chapter with an in-kind service or product, subtract the value of the contribution from our account and send us a statement showing the value of the in-kind contribution and our updated account balance.

For example, XYZ Printers is a Gold Sponsor and pledges \$700 cash and \$1,300 of in-kind services. They create an account for "GDC VI" with a credit of \$1,300. In March, they print posters for the chapter, valued at \$475. Once the printed pieces are delivered, their accounting department sends GDC VI a statement showing the value of the in-kind print work and an account balance of \$825.
